Gentlemen:

Intention to drill the above 3 wells were approved by our office on December 26, 1956. We are under the impression that these wells have not been drilled to date, not having received any information on them, therefore we are voiding these intentions in view of Rule 303 of our Rules and Regulations, "unless operations are commenced within One Hundred Eighty (180) days after the date of approval, the approval to drill will become null and void".

If you desire to drill them in the future, it will be necessary for you to file new intentions with our office for approval.

In case wells have been drilled, please send in the present status for our records.

Very truly yours,  
Oil and Gas Conservation Commission

D.V. Rogers, Deputy Director
