General Comment:

[This is an interim reclamation and stormwater inspection.](#)

Reclamation - Storm Water - Pit**Interim Reclamation:**

Date Interim Reclamation Started: _____ Date Interim Reclamation Completed: _____

Land Use: _____

Comment: Project area is surrounded by open grass field. Revegetation appears to be progressing within the southern and western portions of the project area and appears sparse in the northern and eastern project area where erosion is occurring. Revegetation needs to be monitored during the 2019 growing season, and if not approaching 80 percent revegetation standard, then additional revegetation efforts will be required by November 1, 2019.
