**General Comment:**[COGCC Inspection Report Summary.](#)

On 4/17/2019 at approximately 11:00, I, inspector Rick Moran, conducted a follow up inspection at Utah Oil & Gas well Dragon Trail Unit 1075 in Rio Blanco county.

While there I conducted a follow up inspection of FIR document 679702825 along with a routine well inspection.

During this inspection the following possible compliance issues were observed.

- 1) The tank secondary containment liner is torn.
- 2) Debris from the tank liner has blown off location.
- 3) Storm water run on to location.
- 4) Tracking off location.
- 5) "911" missing on the battery sign.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report 679703770.
