The complaint stated the issues were occurring at his residence.On 04-29-2019, I attempted to make contact with the complaint who stated for the past few months my family wakes up in the middle of night to what sounds and feels like a train driving underneath our home. This week April 22-April 26, 2019 was pretty bad. Usually around 4:00 am, but sometimes at different times, we are woken. Our house shakes and there is a loud continuous noise. I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not observe any unusual noise on the surrounding locations.See inspection document #688402038, 688402034, 688402034 per my inspection.All information reviewed and site inspection information were submitted to the COGCC for further review.
