General Comment:

This is a reclamation and stormwater inspection, conducted with COGCC representatives, Curtis Conklin and Dave Kubeczko. COGCC does not have a contact on record for this operator.

Wellhead remains in place in a grass crop field. Vegetation around wellhead is sparse. Electrical box identified during previous inspection is no longer present. An area southwest of the wellhead approximately 30 feet x 30 feet appears impacted and may need remediation as it is only supporting annual weeds at this time.

Surface owner indicated that he would like to have the area reclaimed to improve his crop field.

See attached photos.
