Nature of Complaint: odor

Field Inspector Actions:  
On 05-13-2019, I was contacted by COGCC staff about a complaint received by the COGCC in reference to Odor. The complainant stated the issues were occurring outside her house and Lipan st and Huron street, from the Interchange A&B pad.  
On 05-13-2019, I attempted to make contact with the complainant who indicated on 5-11-19 at approx.... 1:38PM odor coming from east to west on her property on 15464 Lipan st Broomfield co. This is coming on and off the breeze. She is approx... 2000ft to the west of the extraction oil and gas-drilling rig interchange B is to the east of their property. She informed me her and her son were working outside and the odor was strong enough they stopped working and returned into their home. I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I talked with Extraction drilling supervisor he stated at time of complaint they were drilling and no unusual activity was taking place. At time of inspection, I did not smell any unusual odors.  
See inspection document #688402156 per my inspection.  
All information reviewed and site inspection information were submitted to the COGCC for further review.
