Date: 05-13-2019 Time: 12:15PM via phone

Facility ID #: 456747

Inspection Document # 688402156

Nature of Complaint: odor

Field Inspector Actions:

On 05-13-2019, I was contacted by COGCC staff about a complaint received by the COGCC in reference to Odor. The complainant stated the issues were occurring at 152nd, 144th and Huron street, from the Interchange A&B pad.

On 05-13-2019, I attempted to make contact with the complaint who indicated on 5-11-19 at approx.... 2:19PM she smelled oil or petroleum products at 152nd and Huron. At 2:25 on the same day, she smelled benzene or something similar at 144th and Huron. I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I talked with Extraction drilling supervisor he stated at time of complaint they were drilling and no unusual activity was taking place. We also spoke about adjusting odorant being used in drill cuttings. At time of inspection, I did not smell any unusual odors. I spoke with Broomfield inspectors and they are aware of complaint and have responded to it.

See inspection document #688402156 per my inspection.

All information reviewed and site inspection information were submitted to the COGCC for further review.
