Mark,

As we discussed, COGCC requires the following attachments to process the Rocky Mtn Natural Gas LLC\_Wolf Creek Unit 9 Pad\_Form 2A #401943016:

- Access Road Map
- Construction Layout Drawings
- NRCS Map Unit descriptions
- Hydrology Map showing 1000' Buffer from Edge of Disturbance
- Location Drawing showing 500' Buffer from Edge of Disturbance (the one provided did not have a scale, so it might be OK)
- Location Pictures
- Reference Area Map
- Reference Area Pictures
- Facility Layout Drawing
- Proposed Stormwater BMPs
- Waste Management Plan (if applicable)

I understand that Rocky Mtn Natural Gas has submitted plat packages to the US Forest Service for Application for Permit to Drill (APDs) for the two new proposed wells. Any additional information in those packages would be greatly appreciated for COGCC's review.

If you have any questions, please do not hesitate to call me at [\(970\) 309-2514](tel:970-309-2514) (cell), or email. Thanks.

Dave
