General Comment:

This is an Abandoned Location Inspection, for Three Wells, listed in Inspected Facilities above; APDs First Approved in 2016, Permits Abandoned 4/2/2019. The Three AL Wells have a GPS & COGCC Maps position at the recently expanded North nose of the Location, where there are Four Cellars with Conductors Set, which are purportedly related to the Four XX Wells slated for Drilling (three of which have position approx 310 ft SE of the ALs on GPS & Maps). Documents changing position of three XX Wells were not found in Files. Operator needs to determine if correct well Permits were Abandoned or otherwise explain the API# confusion.
