General Comment:

This is a follow up environmental inspection to document status of drilling pits. Pits were documents as still open on previous COGCC inspections 682600659 and 689900462. Photos attached to document site status at the time of inspection. No reclamation has been conducted at the time of this inspection.

No corrective actions from previous COGCC inspection have been performed. Pits have been closed but no pit closure documentation has been submitted to the COGCC as required on COGCC inspection 682600659 and 689900462. Operator should submit Form 27 with analytical results to area Environmental Protection Specialist immediately.

Corrective action dates from COGCC inspection 689900462 remain in effect. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c. The corrective actions need to be performed immediately.
