Hey Catherine,

-

Attached is photo documentation showing that Kinder Morgan has successfully completed the Corrective Action in regards to the loose perimeter soil piles on the CX-14 location prior to the due date of 4/13/2019. I attempted to enter and upload this as part of a FIRR document, but e-Forms stated that there are no Corrective Actions associated with this inspection form. Let me know if you have any questions, thanks –
