General Comment:

[This is a Construction and Stormwater Inspection in response to Form 42: Notice of construction- Document #402048802.](#)

(This area is intentionally left blank for additional comments or signatures.)

Location Construction

Location ID: 456769 CDP: _____

Comment: At the time of this inspection, Operator has only initiated stormwater implementation and has not started major construction activities (i.e., topsoil salvage).

Corrective Action: _____ Date: _____

Form 2A COAs:

Comment: _____

Corrective Action: _____ Date: _____

Wildlife BMPs:

Comment: _____

Corrective Action: _____ Date: _____

Stormwater:

Erosion BMPs	Present	Other BMPs	Present
BERMS			

Comments: Erosion BMPs: A berm BMP has been installed around the perimeter of the location but it has not been installed with good engineering practices. The berm BMP has not been stabilized. An unconsolidated berm BMP is not a proper functioning BMP, as the unconsolidated material becomes a source of potential pollution itself.

Operator shall ensure this BMP is properly stabilized prior to major construction activities, as it could be susceptible to wind and water erosion.

Other BMPs: _____

Corrective Action: _____ Date: _____

Comment: Operator representative, Claude Boiteau, was at location and indicated the berm BMP was too wet to finish when it was cut on Wednesday, May 22nd. Operator did indicate the berm BMP would be properly installed prior to any further construction activities.

Corrective Action: _____ Date: _____
