Dear Sir:

On June 18, 1956, your approval was obtained for work which we had proposed to dually complete and commingle "D" and "J" Sand production in the subject well.

This letter is to advise that we no longer plan to accomplish this work. Instead, it is planned to continue producing this well from the "D" Sand until the economic limit is reached and then recomplete in the "J" Sand. Notice of intention will be submitted for your approval before the anticipated recompletion of this well is commenced.

Very truly yours,

THE TEXAS COMPANY
