

OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

SUNDRY NOTICES AND REPORTS ON WELLS

OIL & GAS
CONSERVATION COMMISSION

INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recomplete or abandon a well or to change plans. Within thirty (30) days after recompletion, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

(DETAILS OF WORK)

The above described well was completed in the Muddy sandstone in August, 1955 producing 76 barrels of oil per day from perforations 4874-78 feet KB. Production currently is 17 barrels of oil per day. It is now proposed to dually complete this well by opening the Dakota sandstone to production. We propose to drill the casing shoe, clean out nine feet of open hole 4993-5002, selectively test five feet of Dakota sand, and if necessary perforate the open hole with large bullets.
