General Comment:

This is an Abandoned Location Inspection for Well API#045-13175; APD first Approved 12/6/2006 for Antero; Conductor Plugged 2/23/2018; Permit Abandoned by Ursa 3/14/2018. Though reports verify that Conductor was Plugged & Abandoned, there is evidence of Well; grated Cellar & capped Conductor are visible. It does not appear that this AL Well was drilled on Location with Four PR Wells; therefore, this would be a Well Release on an Active Location, if not for Evidence of Well remaining on Site.
