**General Comment:**

This is an Abandoned Location Inspection for Three Wells listed in Inspected Facilities above. APDs were first Approved in 2008 for Antero; Conductors plugged 2/27/18; Permits Abandoned 3/14/18 by Ursa. Though reports verify that Conductors were Plugged & Abandoned there is evidence of Wells; ID signs, grated Cellars & capped Conductors (at ground level) remain at Well positions. It does not appear that these AL Wells were drilled on Location with One WO Well; therefore, these would be Well Releases on an Active Location, if not for Evidence of Wells remaining on Site.
