Operator Comments:

SRC Energy Inc. endeavors to provide accurate information to the COGCC. Therefore, upon receiving corrective actions on our locations during COGCC Field Inspections, SRC has proactively performed an internal audit of several older vintage locations based on our regulatory compliance program and are self-reporting our findings to COGCC.
 On 6/6/2019, SRC met with John Noto and Margaret Ash to discuss our findings.

(438758) SRC Wind Pad
 ? Spud 2015
 ? First Production 2015
 ? Met with COGCC to discuss on 6/6/2019
 ? Self-reporting for regulatory compliance program
 ? Upon our review, SRC is self-reporting the following information. SRC has found that some facility equipment was constructed outside the originally permitted 2A disturbance area. Said facility equipment is located on a portion of an old location that has since been plugged and reclaimed. The additionally disturbed area to the West is part of DCP's valve station and SRC only utilized this area for access to the location. SRC will wait to hear back from COGCC staff on proper next steps.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
