Location Name: Hergert /35-D Facility  
Location ID: 426721

**Photo 4.** Photo taken from the southern location, facing East. Operator has made repairs to the erosion but the fill slope has not been properly stabilized. Appears the southern fill slope has been seeded but there was no observed mulch or other BMP to stabilize the fill slope until successful germination or establishment of vegetation.

Location Name: Hergert /35-D Facility  
Location ID: 426721

**Photo 5.** Photo taken from the southwestern location, facing North. Operator has only made repairs to the erosion but has not implemented additional BMPs to prevent sediment laden stormwater from leaving location. Sediment laden stormwater will continue to leave the Location because the Operator has not implemented sufficient long-term stormwater BMPs.
