General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Reclamation Specialist	Operator did not fill out this form correctly. It appears this an Interim Reclamation complete notice. Based on the attached photo documentation, the location is surrounded by an agricultural field but the photo documentation was not taken during the active growing season. Therefore, the Operator can not make an accurate assessment about interim reclamation unless the crop was actively growing. Operator shall inspect the location again during the active crop growing season to make an accurate assessment to ensure the location is in compliance with Rule 1003 standards.	06/18/2019
Routing Review	A task has been opened for the Area Reclamation Specialist to review the information provided by the operator.	05/20/2019
