The purpose of this notice is to solicit public comment on the EWS-4B injection permit submitted by EWS 4 DJ Basin LLC. The EWS-4B is a new directional well drilled for commercial EPA Class II disposal. EWS-4B will be the third well in the existing EWS 4 Disposal Facility with the operational disposal wells EWS-4 and EWS-4A. The EWS-4B surface location is 2193 ft (feet) from the south line and 483 ft from the east line in the NE/4 of the SE/4 of Section 18, Township 2 North, Range 63 West, 6th P.M., Weld County, Colorado. The bottom hole is located 1650 ft from the north line and 1858 ft from the west line of Section 20.

BACKGROUND

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.
