**Subject:** State Reportable Release - Drilling Fluid Management Facility

Good Afternoon,

We had an unauthorized dump of oil based drilling mud (OBM) at the Kerr-McGee Drilling Fluid Management Facility #1. Total volume dumped at the location is approximately 1 barrel. Efforts to recover OBM and remediate the site are underway. An initial Form 19 Release Report will be submitted today. Please let me know if you have any questions. Thank you,

Name – Drilling Fluid Management Facility  
Facility ID – 149021  
Legal - NESW 34-T3N-66W
