<input checked="" type="checkbox"/> Other <u>Put well on vacuum</u>	<input type="checkbox"/> Status Update/Change of Remediation Plans for Spills and Releases	

COMMENTS:

TCO is operting a gas gathering system with a central compressor station, satellite compressor stations and wellhead compressors to pull approximately 7 psi of vacuum at the wells. Attached is a map showing the location of the referenced well. Oxygen monitors are located at each satellite compressor station. If oxygen levels exceed 10ppm at the main gas sales meter, gas sales will be shut off until the levels are returned to 10ppm or less. Actions will be taken to correct the problem. There are no operators other than TCO within 1/2 mile radius.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

COMMENTS:

Best Management Practices

No BMP/COA Type

Description

Operator Comments:

This sundry is part of records clean up. Previous operator was operating referenced well on vacuum with no sundry on file.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
