☐ **DIGITAL WELL LOG UPLOAD**

☐ **DOCUMENTS SUBMITTED** Purpose of Submission: _____

RECLAMATION

INTERIM RECLAMATION

☐ Interim Reclamation will commence approximately _____

Per Rule 1003.e.(3) operator shall submit Sundry Notice reporting interim reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

☐ Interim reclamation complete, site ready for inspection.

Per Rule 1003.e(3) describe interim reclamation procedure in Comments below or provide as an attachment and attach required location photographs.

Field inspection will be conducted to document Rule 1003.e. compliance

FINAL RECLAMATION

☐ Final Reclamation will commence approximately _____

Per Rule 1004.c.(4) operator shall submit Sundry Notice reporting final reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

☐ Final reclamation complete, site ready for inspection. Per Rule 1004.c(4) describe final reclamation procedure in Comments below or provide as an attachment.

Field inspection will be conducted to document Rule 1004.c. compliance

COMMENTS:

SandRidge is requesting approval to temporarily stage approximately twenty (20) Halliburton equipment trucks and sand trucks on the Hebron Central Tank Battery (CTB) Location (#434014) for up to seventy (70) days while the frac is taking place on the nearby Oxbow 0880 S29 Pad Location (#458790), approximately 2 miles to the north.

Landowners have been notified and agree.

SandRidge is starting fracing operations of the recently drilled six wells at the Oxbow 0880 S29 Pad Location (#458790). Due to space limitations on the Oxbow pad, we are planning on using the Hebron Central Tank Battery (CTB) Location (#434014) as a staging area for sand trucks, and possibly Halliburton trucks waiting to drop off equipment, that will be needed during fracing at the Oxbow Pad. The trucks on the Hebron CTB will be waiting temporarily until they are able to pull onto location at the Oxbow Pad. Completions personnel have indicated that there will most likely not be 20 trucks on location at any one time, but said that could be the ultimate maximum. The frac may take up to 70 days; the trucks will be temporarily staged and then leave the Hebron CTB to go to the Oxbow pad where the frac operations are taking place.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public

use: _____
