Comments:

The last inspection was performed in 4/2016. At that time Ryan Costa met with the landowner (Karen McCall) who was confident the land would recover and good crop growth could be obtained. We have attached photos from 6/2019 that shows vigorous crop growth (wheat) on well over half of the site (compare this to the 2014 photo attached). We ask that the COGCC remove the site from our bond. It is clear the land is recovering and we believe it is unfair for the COGCC to keep the site on our bond since the landowner will not allow us to amend the soil to speed up the reclamation process (see attached letter from the landowner to the COGCC).
