Dear Director Macke:

Patina Oil & Gas Corporation ("Patina") hereby submits the Application for Permit to Drill ("APD") for the captioned wells (the "Wells"). All of these Wells will be drilled directionally from a surface location agreed to by the surface owner. Attached is a copy of the Surface Use Agreement. The surface location is approximately 90 feet from a property line. Patina has obtained a waiver, from the offsetting surface owner, of the COGCC Rule 603.a.(2) requiring that the Wells be located a minimum distance of 150 feet from a surface property line.
