**General Comment:**

This is an interim reclamation and stormwater inspection. Document 401463040 is an approved interim reclamation variance for delayed operations up to 5 years. Approval of this variance does not absolve Gunnison Energy of potential enforcement regarding a lack of responsiveness to corrective actions and lack of interim reclamation before the variance request.

Condition of approval for the delayed interim reclamation variance request details that interim reclamation shall be conducted if delayed operations are completed or determined unnecessary.
