Re: Unresolved Remediation Projects - Revised Financial Assurance Requirement

Dear Mr. Fritzler,

The COGCC appreciates your recent efforts to update the status of your remediation projects, plans and estimated completion costs as outlined in your May 24, 2019 letter. The COGCC has reviewed and approved the Form 27s that you have recently submitted. As a result, COGCC has reviewed the estimated costs that you provided and has revised the financial assurance requirement. Attached is the revised summary of the financial assurance that COGCC is seeking in recognition of your recent remediation and reporting efforts. The COGCC is seeking \$34,800 in cumulative financial assurance for the remaining active projects, due by July 12, 2019.

The COGCC would prefer financial assurance for the individual projects as listed on the attachment. Once you receive No Further Action status for each remediation project, you will be able to request the financial assurance that was posted for that project.

Please note that at this time, the COGCC is only requesting financial assurance for the remediation of these active projects and not for the subsequent reclamation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert J. Young', is placed below the word 'Sincerely,'.

Robert J Young, Environmental Protection Specialist
