

A photograph of a green industrial valve assembly, likely a wellhead or flow control valve, mounted on a gravel surface. The valve has a large green handle on top. A white label is attached to the side of the valve body. To the right of the valve is a larger green metal structure, possibly a wellhead, with a white label featuring a large black number. In the foreground, there are various pipes, valves, and a pressure gauge connected to the main assembly. The background shows a gravel area, a green metal fence, and a hillside with sparse vegetation under a clear blue sky.
