Corrective Action: Control weeds.

Date: 07/26/2019

Response: CA COMPLETED

Date of Completion: 06/12/2019

Operator Comment: Kinder Morgan CO2 Company, LP (KM) applied herbicide to the DC-9 interim reclamation area on June 12, 2019 and July 11, 2019 to control weeds at the location per the attached Herbicide Application Records. Also attached are photos of the DC-9 location from 7/11/19 showing successful interim reclamation and weed control as evidenced by Herbicide Application and subsequent weed mortality. Comments from the Reclamation Specialist on FIR #693900501 indicate "Approximately 150 dalmation toadflax and 50 musk thistles within the interim reclamation areas". KM staff and the contract weed sprayer visited the location post-COGCC Inspection report and discovered that a large majority of the toadflax and musk thistle identified by the COGCC staff are

located outside of the perimeter of the permitted location, thus KM cannot control weeds outside of the area permitted on the Form 2A, nor agreed to in the Surface Use Agreement with the private surface owner.
