Comment:

Well PA 11/10/2018. Reclamation rule 1004 requires reclamation that all reclamation activities shall be conducted w/in 12 months on non-cropland after plugging.

Equipment has been removed, however, no other reclamation activities appear to have been conducted; Gravel/road base remains on location/access road. Compaction alleviation, recontouring/regrading and revegetation activities do not appear to have been conducted on location or access road. Road requires removal through drainage, and drainage restored. Any existing culverts will also require removal. All reclamation activities per 1004.a will need to be conducted by 11/10/2019 with revegetation in process by spring of 2020.

			Fail			Access road.

Comment:

Corrective Action:

Erosion degradation evident along access road. Issues should be resolved during final reclamation activities.

Operator is required to conduct ongoing stormwater monitoring and management until location passes final reclamation in accordance with 1002.f. Location will remain out of compliance until either stormwater management, reclamation, or both occurs.
