CORRECTIVE ACTIIONS:

1 CA# 126930

Corrective Action:

Date: 11/15/2017

Perform reclamation in accordance to COGCC 1000 series reclamation requirements including, but not limited to, compaction alleviation, recontouring/ re-grading, removing cattle guard, and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels on the location and access road. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.

Response: CA COMPLETED

Date of Completion: 09/03/2018

Operator Comment: Surface owner owns the cattle guard and does not want the cattle guard removed - PCR removed the guard & cleaned out the area and returned the guard per direction of the surface owner. The surface owner uses the access road for ranching operations and does not want any further reclamation activity at this site. Letter from surface owner attached.

COGCC Decision: **Not Approved**

COGCC Representative: COGCC decision "Not Approved".

An Operator response of "Corrective Action Complete" is a notification to the State that the corrective action has been addressed in its entirety. Based on operator comments corrective action does not appear to have been completed.

The location and access road are observed as industrial oil and gas disturbance subject to COGCC 1004 final reclamation obligations of PCR Operating LLC.

A surface owner letter alone does not waive operator responsibility to comply with COGCC regulations; It is noted that the COGCC has provided Operator several notices regarding the requirement for submission and Director approval of a 502.b surface owner variance request, in accordance with the "1001.c: Reclamation Variances and Waivers" Operator Guidance document, to waive compliance to various requirements of COGCC 1000 series reclamation rules.

In summary, no 502.b surface owner variance has been submitted or approved for this location; PCR Operating remains responsible for the reclamation of their oil and gas disturbance(s) in accordance with 1000 series rules, and the corrective action requiring final reclamation will remain applicable until addressed.

OPERATOR COMMENT AND SUBMITTAL

Comment: Surface owner owns the cattle guard and does not want the cattle guard removed - PCR removed the guard & cleaned out the area underneath and returned the guard per direction of the surface owner. The surface owner uses the access road for ranching operations and does not want any further reclamation activity at this site. Letter from surface owner attached.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
