<p>The Vondy 3 Plugging Project is underway. The Vondy 3 site consist of dry and abandoned well that has started leaking water to the surface. Well was brought to COGCC attention through complaint filed by landowner that water was surfacing at PA location. Environmental inspection of Complaint #200440829 - water surfacing at PA well location was conducted 12/30/2017. Well was placed on Orphaned Well List and is the process of being plugged. This inspection was performed as work was completed installing a working wellhead on surface casing for entry and plugging work.</p> <p>Met Excell Services at site. Surface casing cap was cut and wellhead with 4' drop pipe was set into surface casing. Wellhead was welded into place and well was shut in. Additional pin leaks were identified in casing cap weld and pipe surface. Welder repaired leaks and area was backfilled and prepped for placement of balance beam.</p> <p>Work site was secured.</p>	stjohnw	07/20/2019
