**Subject:** [EXT] State Reportable Release  
**Date:** Tuesday, August 6, 2019 4:04:28 PM

---

**CAUTION**

Good afternoon,

We had a State reportable release at the location noted below due to volume outside of containment. A mechanical failure on a hydro-vac truck caused approximately five barrels of produced water from the tank battery to be release to the battery pad location. The majority of the liquids were recovered from the pad surface however cleanup activities are currently underway. A Form 19 Release Report is forthcoming.

Please let know me if you have any questions.

Associated Facility Name: Babcock 19N-33HZ  
Location: SWNE Sec 4 T2N R67W  
Location Facility ID : 330811

Thank you,

Phillip L. Hamlin PG, REM
