Flowline System

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, or report abandonment of Off-Location Flowlines, Domestic Taps, Crude Oil Transfer Lines, and Produced Water Transfer Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to report Grade 1 Gas Leaks from Flowlines per Rule 1104.k. To register Flowline Systems, the operator will use the Form 44 to request approval of a Rule 502.b variance from the requirements for Off-Location Flowline Registration per Rule 1101.a.(2).A.viii and 1101.a.(2).B.ii.

OPERATOR COMMENTS AND SUBMITTAL

Comments

Full field flow line GDB.
OutOfServ and DOTLine fields have been added, but the attributes will be blank. These will be populated for the next submittal.
There are roughly 500 flowlines that were associated with wells that had been P&A prior to May 2017 that we are currently evaluating to ensure that their associated flow lines have been removed and the correct status is reflected in PODS. These flow lines will be included in the submittal next month.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Signed: _____ Date: 08/07/2019 Email: Callie.Fiddes@Anadarko.com

Print Name: Callie Fiddes Title: Regulatory Analyst

Based on the information provided herein, this Flowline Report complies with COGCC Rules and applicable orders and is hereby approved.

COGCC Approved: _____
