## DESCRIPTION OF IMPACT

Impacted?	Impacted Media	Extent of Impact	How Determined
No	SOILS	0	sampling

## INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

partially buried produced water vaults were removed

## PROPOSED SAMPLING PLAN

### Proposed Soil Sampling

Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

There were two partially buried produced water vaults that were closed. Confirmation grab samples were collected from all four sidewalls and the floor of the produced water vessel graves. The one sidewall sample exhibiting the greatest potential for impact along with the floor sample from each grave were submitted for laboratory analysis of BTEX, GRO, and DRO. The sidewall samples were also submitted for laboratory analysis of pH and EC. Laboratory analytical reports are attached.

### Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

groundwater was not encountered in the pits.

### Proposed Surface Water Sampling

Will surface water samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):
