<p>Comment: Stormwater controls within the southeastern project area remain full of sediment and erosion continues. Cobble velocity checks are not sufficient in this area. Corrective action from 2017 is not sufficiently addressed.</p> <p>Corrective Action: Install stormwater controls to stabilize erosion within the southeastern project area. Stormwater controls need to be selected, installed, and maintained using good engineering practices such as those described in CDOT erosion control manuals. Corrective action date is back-dated to document time since original corrective action was issued.</p>						Date: 05/12/2017
Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT
