COGCC Comments

Comment	User	Date
<p>On (Friday) (8/16/19) at approximately (1303), I, Inspector Dougo Wentzel, conducted a (Routine FIU General Field re-Inspection) at (Laramie) (Oxbow 18-1E), (API #077-08666) in (Mesa) Colorado. While there, I observed (A Production Operation only.) Corrective actions from previous inspection have been made: Battery sign has been posted at entrance. Unused equipment stored on location has been removed. Trash can has been removed. Culvert has been repaired or replaced. During this inspection compliance issues were observed: Stormwater erosion not being controlled on the location at this time. BMP's not in place, need repaired or are not being maintained at this time. Sediment is moving onto or off location on the N, NE and S sides of location. BMP's need maintenance. Sediment is choking out vegetation. See photos. 6-9 Erosion sediment is moving off location into a sediment trap and through the armoring. Sediment trap is on the S side of location, and needs maintenance. See photos 10,11. Photo is of the S side of location. Erosion sediment is moving off location and choking out vegetation. See photos 12,13 Erosion sediment moving onto location by tank battery. BMP not working and needs maintenance at time of inspection. See photos 14,15 Sediment is moving down access road. BMP's not in place or need maintenance. (Refer to Corrective Action Matrix for comments, corrective actions, and corrective action date). Refer to photograph of observed compliance issue. A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. (if correction actions are identified) This is a summary of inspection report.</p>	wentzeld	08/16/2019
