INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

Removed screen cover from pit. Removed water from pit. Excavated approximately 300 yards of oil-impacted soil. Placed soil on plastic until it can be ahuled to a disposal site.

Proposed Soil Sampling

Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

After excavation works is completed, two samples collected in the north, west, east and south sides of the pit and two samples in the base of the pit. Samples will be combined and and then analyzed per COGCC staff instruction.

Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Proposed Surface Water Sampling

Will surface water samples be collected as part of this investigation? (Number, analyses, and locations of samples):
