Complaint

Comment: Inspection in response to complaint.
 Field Inspector Assigned: Randy Silver
 Complaint Received
 Date: 08-20-2019
 Complaint Contacted:
 Date: 08-21-2019 Time: 2:59PM via phone left voice mail
 Location ID #319094
 Inspection Document # 693501137
 Complaint Document #200447975
 Nature of Complaint: Smoke
 Field Inspector Actions:
 On 08-21-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Smoke. The complainant Christie Stanford 2778 Trinity Loop Erie CO stated the issues were occurring outside of complainants home.
 On 08-21-2019, I attempted to make contact with the complainant who indicated that on 8-20-19 for the past several day seeing a black plume of smoke coming from the site for the entire day.
 I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did observe what appeared to be emissions coming from the frac pump trucks. COGCC does not regulate emissions. This well is located next to a active landfill, there are several pieces of heavy equipment creating emissions working on landfill around well site.
 At time of inspection, I spoke with frac supervisor he stated at time of complaint they were fracing and no unusual activity was taking place.
 Weather conditions: Clear and location was dry
 See inspection document #693501137 per my inspection.
 No violation of COGCC rules were observed at the time of the inspection.
 All information reviewed and site inspection information were submitted to the COGCC for further review.
