<p><b>COGCC Inspection Report Summary</b>                      On Monday August 27, 2019 at approximately 10:05 AM, I, Inspector Randy Silver, conducted an on-site inspection at KP Kauffman site Wattenberg Henry E Unit #C-1, at API # 05-123-10112 in Weld County Colorado.                      While there, I observed production well site                      During this inspection the following possible compliance issues were observed:                      Weeds: Rule 603 f Corrective action date of 9-10-19 See photos 1,2,4,5                      Reporting: Rule 206 Corrective action date of 9-27-19                      MIT: Rule 326 Contact COGCC Engineering                      At time of inspection well site appears not to have been maintained, weeds are overgrown in and around Pu and location. Well has been shut in since 1-12-17 Per FIR DOC# 684902927. MIT is required on two year date of shut in. Production records show well as producing when FIR Doc's show well as Shut in.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	silverr	08/27/2019
