**RE: HOLDEN 1
HOLLIS 1-6
PROWERS COUNTY, COLORADO**

Dear Ms. Branting,

We are in receipt of your letter dated May 3, 1996 concerning the plugging of the Holden 1 (099063440) and the Hollis 1-6 (099062180) in Prowers County, Colorado.

The Holden has been plugged and a copy of the Form 4 received back from the Commission is enclosed.

We may want to convert the Hollis 1-6 to a water disposal well. Later this year we plan to rework the Hoffman 1-31, which is just north of the Hollis well. We anticipate the Hoffman 1-31 will make considerable water and the most efficient method of dealing with the water is to inject it nearby. A Form 4 outlining this plan for the Hollis 1-6 is enclosed.

Please let me know if you have any questions.

Respectfully,

Joseph D. Stewart
