Mr. Eric Waring  
Helmerich and Payne Drilling Co..  
First National Building  
Tulsa, Oklahoma

Dear Mr. Waring:

Following are my tops picked from the electric log and drill stem test information for the White Eagle #1 State, SW NE SW, Section 9-8 N-50 W, Logan County, Colorado, plugged today.

Niobrara	3590 (#699)
Ft. Hayes	3854 (#435)
Codell	3928 (#361)
Carlyle	3948 (#341)
Greenhorn	4152 (#137)
"D" sand	4388 (- 99)
"J" sand	4489 (-200)
Skull Creek	4595 (-306)

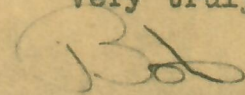

DST #1: 4389-4440, open 26 minutes, no shut-in. Recovered 1260' muddy water, slightly gas cut. Good blow of air immediately, diminishing and died after 20 minutes. Then mud level fell and tool was pulled. F.P. 740. Hydrostatic 2630.

DST #2: 4499-4507, open 30 minutes, shut-in 15. Recovered 2' drilling mud. Weak blow of air, died in 5 minutes, picked up and reopened tool, faint blow and died. F.P. 0. B.H.P. 0. Hydrostatic 2840.

Enclosed is the requested field print of the Schlumberger. When possible the complete report will be forwarded to you. The report on the #1 Colorado is waiting on a Johnson Tester final report.

Once again I enjoyed being associated with Mr. Copeland in the field. I am looking forward to meeting you in the near future.

Very truly yours,

  
R. W. McDowell, Jr.
