 Nature of Complaint: Environmental  
 Field Inspector Actions:  
 On 09-04-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to environmental concerns. The complainant stated the issues were occurring at the Cleveland #7.  
 On 08-29-2019, I attempted to make contact with the complainant who indicated that Complainant submitted complaint due to well-being abandoned and not maintained. I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did find the Pumping unit had been dismantled and laying on ground. As far as weeds another operator had dug next to location to remove their flow lines and was spreading dirt.  
 Weather conditions: Clear and location wet.  
 See inspection document #693501297 per my inspection.  
 Violations of COGCC rules were observed at the time of the inspection.  
 All information reviewed and site inspection information were submitted to the COGCC for further review.
