General Comment:

COGCC Environmental Inspection. Follow-up to 7/29/2019 Field Inspection Report (FIR) #698100051. Weather conditions during inspection were Sunny with a temperature of 65 degrees Fahrenheit.

Several corrective actions listed on previous FIR have been addressed by operator: tank battery secondary containment has been cleaned up, well cellars have been backfilled to prevent wildlife access, localized accumulations of oil-stained soil inside of fenced wellhead area have been addressed, no audible gas leaks were observed at separators or wellheads.

[See photos.](#)

LocationOverall Good: ☐

Emergency Contact Number:

Comment: Emergency contact number (866-662-2378) listed on several wellheads (red signs) was tested on 8/30/2019 and rings to Marathon Oil emergency response. Number appears to be out of date, as live answer indicated that they are no longer responsible for assets in the Piceance.

Corrective Action: Install sign to comply with Rule 210.e.

Date: 10/10/2019

Overall Good: ☐**Spills:**

Type	Area	Volume
