General Comment:

On 9/11/2019, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at Omimex Petroleum's Bledsoe 5-30-3-43 location in Yuma County, Colorado.

The following alleged compliance issues were observed during this inspection:
210.b: Sign illegible; Unable to read Operator information and emergency contact number

At approximately 11:30 hours, Reclamation Specialist met with Mr. Mike Vasheer (Sp.?) on the location. Mr. Vasheer identified himself as an employee of Omimex and was notified of the issues observed with the sign.

Refer to the "Location" and "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
