<p><b>COGCC Inspection Report Summary</b>                      On Thursday September 12, 2019 at approximately 1:51PM, I, Inspector Randy Silver, conducted an on-site inspection at a MCCLANE energy INC site Van Scoyk #1, at API# 05-001-08191 in Adams County Colorado.                      While there, I observed well site and TNK BTRY                      During this inspection the following possible compliance issues were observed:                      Sign: Rule 210 b Corrective action date of 10-12-19 See photo1                      Stained soil: Rule 907 e Corrective action date of 11-5-18 See photos 2,3                      Placards: Rule 210 d Corrective action date of 11-22-16 See photo 8                      Mechanical issue: Rule 605 d Corrective action date of 10-19-18 See photos 3,4,5                      Weeds: Rule 603 f Corrective action date of 10-12-19 See photos 2,6,7,8,9                      Stained soil: Rule 907 A Corrective action date of 11-5-18 See photos 4,5                      Trash: Rule 603 f Corrective action date of 10-19-18 See photo 6                      Unused equipment: Rule 603 f Corrective action date of 11-5-18 See photo6                      Weather conditions: Clear and location dry                      I tried to call emergency contact number but not a working number looked in operator file called emergency number listed and as soon as said who I was they hung up. Called other number listed and spoke with a women who stated the operator was not working the well anymore and was going to let it go.                      This is a follow up inspection per Doc#691401135 at time of inspection all corrective actions had not been addressed. Well site and TNK BTRY locations appears to not have been maintained in quit some time.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	silverr	09/12/2019
