VEGETATIVE COVER PASS

Comment:

The access road and the location have been recontoured and reclaimed. The vegetation was determined to be at least 80% cover. Some of the vegetative species observed included Pas smi, Bou cur, Dac glo, Med sp., among other species. There were no erosion or noxious weed issues observed. All tnporary stormwater controls were removed and the area is stabilized with vegetation. No equipment or debris remains. The final reclamation requirements have been completed. See Attached Photos
