Comment:

	<p>This location is not in compliance with Rule 1004. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. Well was plugged 01/09/2019. Operator has failed to complete final reclamation activities at the tank battery location. Refer to the attached inspection photos.</p> <p>Note: Surface owner was at the tank battery location and indicated the desire to leave the gravel in-place for hay and equipment storage.</p>	
Corrective Action:	<p>Comply with Rule 1004. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Corrective action date is being back-dated to when all final reclamation work should have been completed.</p>	Date <b>04/09/2019</b>
