Comment: This location is not in compliance with Rule 1004. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. Operator has failed to complete final reclamation activities at the tank battery location. Appears the last well associated with the tank battery was plugged on 1/9/2019. A corrective action inspection has been submitted regarding the tank battery (Doc.# 697500593). Refer to the attached inspection photos.
