 Nature of Complaint: Noise  
 Field Inspector Actions:  
 On 09-15-2019, I Randy Silver area field inspector was assigned a complaint received by COGCC staff in reference to Noise The complainant 2453 Ivy Way Erie CO stated the issues were occurring outside of complainants home.  
 On 09-15-2019, I attempted to make contact with the complainant who indicated that the well site generates intrusive levels of noise in the very early hours of the morning. Noise can be heard inside complainant's house.  
 I performed a complete site inspection of the oil and gas location and associated wells in the area. At time of inspection, I did not observe any unusual noise. Company is performing drill out procedures right now. There are three drill out crews on site working.  
 At time of inspection, I spoke with one of the 3 drilling supervisor's Nick Augustine he stated at time of complaint they were performing drill out procedures and no unusual activity was taking place. Third party sound study is attached to inspection doc and complaint.  
 Weather conditions:  
 See inspection document #693501401 per my inspection.  
 No violation of COGCC rules were observed at the time of the inspection.  
 All information reviewed and site inspection information were submitted to the COGCC for further review.
